

Amendment
Application No. 09/282,320

IN THE CLAIMS:

RECEIVED

JAN 16 2002

Technology Center 2600

Please amend the claims as follows:

C-56
a

1. (Once Amended) An image framing system comprising:
a camera having a lens for producing a camera image, and
a mirror that produces a mirror image, the mirror having a
reflection surface that is substantially greater than the lens
surface,
wherein:
the mirror is operably coupled to the camera such that the
mirror image is representative of the camera image so as to
facilitate framing an object image in the camera image.

2

11. (Once Amended) A video conference system comprising:
an image framing system that includes:
a camera having a lens to produce a camera image for
communication to a remote site, and
a mirror that produces a mirror image that is
representative of the camera image to facilitate framing an object
image in the camera image, the mirror having a reflection surface
that is substantially greater than the lens surface; and,
